DIGITAL SAFE LOCK

Model **OSSL - 01**
 Size **W420 x D370 x H200**
 Weight **11 kg.**

1. Design :

Unique appearance and function design.

2. Safe Structure :

Double active-lock bolts, micro-motor driven, open & close smoothly without noise.

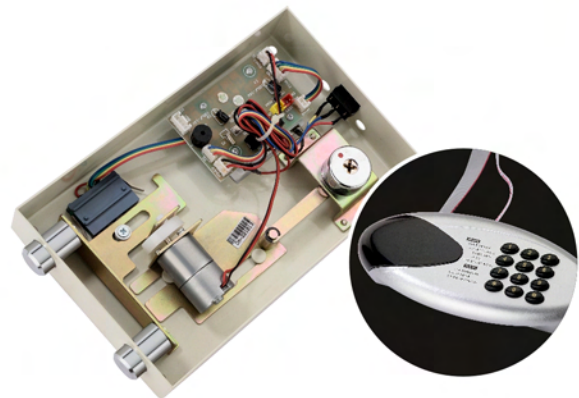

3. Environment Technology :

One step body forming; unleaded powder coating upto grade ROHS; SMT PCB.

4. Intelligent Programming :

Stable micro computer chips, classified management of 6 numbers master code and 3-6 number guest code.

2. Display: Large LED screen

COMPLETE HOTEL DOOR LOCK SOLUTIONS

**Hotel Encoder &
Free Software**

**Mini Bar /
Mini Fridge**

**Energy Saver
Switch**

Electric Kettle

Hair Dryer

Encoder : This Device will activate the cards for the specific room for a specific time period.
Software : With the help of this your encoder will work and you can manage complete hotel lock system.

Main Features :

- (1) Unlocking by RFID card + mechanical key in emergency.
- (2) Support card type: Temic T5557 card, 125KHz or Mifare S50 card, 13.56MHz.
- (3) Material: Stainless steel panel, elegant and rigorous, reliability.
- (4) U.S. Lock Mortise with 5 latches Structure;
- (5) Powered by 4pcs AA Alkaline battery for 10-12 months' life.
- (6) Anti-tampering alarm, low power, passage mode.
- (7) Management classification: support many types of cards including authorization card, clock card, master card, emergency card, floor card, building card, guest card, housekeeping card...
- (8) Hotel locking system includes: hotel locking software, Card encoder, RF card, energy saving switch, data collector.

Inductive Area :

Card Type: T5577 125 KHz card or 13.56 MHz Mifare 1 RFID card. Responding time: 0.3s. Green and red LED lights to display every lock status.

Hotel Lock System includes:

- 1) Door Lock (qty = guest room) installed in doors.
- 2) Encoder (qty=1-2pcs/hotel) For issuing/ program all cards to be unlock key.
- 3) Energy-saving Switch (qty = guest room) To control power, saving power.
- 4) Cards (Qty = 3-5 times of guest room) be programmed to be the key by the encoder.
- 5) Data collector (1pc/hotel, Optional) Download unlock records(Who/When open) from the lock.
- 6) Self-developed software, English language (free of charge) For control and management the whole system.
